ROEQ TR125 Top Roller

The TR125 is developed to support internal logistics in industry and healthcare facilities.

The basic functionality of the TR125 is to perform automated load and unload operations and thereby making MiR100/MiR200 able to carry out scheduled pick-up and delivery tasks.

The height of the conveyor can be set manually in heights from 650 mm to 850 mm.

Optionally the TR125 can be delivered with fully automated lifter so goods can be collected and delivered in heights from 650 mm to 850 mm.

Roller area
Width 485 mm
Length 890 mm

Motorized Top Roller

The motorized Top Roller can solve various logistics tasks.

Height adjustment

Fixed height or automated height adjustment from 650 mm to 850 mm.

Maximum payload

MiR100: 25 kg
MiR200: 125 kg

This is how the ROEQ TR125 works

The MiR100/MiR200 with TR125 carrying goods to be unloaded.

The ROEQ TR125 is optionally delivered with an automatic height adjustment solution, which gives the opportunity to collect and deliver in different heights.
